- 2.2 Instructional materials (ex. math program update to Envisions 2020) **training on new math program in the Fall. Discussion on technology programs for next year: Moby Max, MAP accelerator, MYon. Lack of student interest in MobyMax, Myon doesn't offer much other than a place to read books, but had some content issues. Epic has great comprehension component. Achieve is very accommodating for different levels. iReady has many great opportunities. Freckle is great for math, it's fun and very interactive. In general, kids really enjoy Freckle. Working to take this information and input from staff/Academic Committee to determine consistent programs for usage at Rhodes.**  
**Information and discussion on Grading Reform. Changes will happen involving grading reform district wide. There has been an increase in students having D's and F's across the district. Grading scale will be adjusted for all to ensure equitable practices.**
